Do you want to be part of a team of clinicians, working together and supporting each other to create the highest quality, largest and most innovative mental health service in the UK?

Our Vision

At Psych Health, we believe that excellence in clinical care is achieved by supporting clinicians to do what they do best. Our aim is to create an organisational culture in which clinicians can work together and feel empowered to develop and grow, and through that process, deliver the highest level of care to our patients.

We aim to invest to create an innovative mental health service to enrich the lives of our patients and our clinicians.

The Company

Psych Health are one of the leading independent providers of psychological services to the workplace sector. Established 13 years ago, and led by clinicians, we place our clinical work and the quality of it at the heart of our business. We work across a varied and rapidly- expanding client base including employers, insurers and Occupational Health providers, providing high quality psychological assessment and therapy across a diverse range of sectors including construction, charities, emergency services, engineering, manufacturing, financial and professional services, public sector, retail, and utilities.

The person
